How a husband and wife team started with plasticine models in the basement and ended up with a computer animated children's video.

Toronto, January 31, 2002 Cody's Crew - The Big Building , the story of Cody the giant excavator and his Crew of construction vehicle pals is now available on video. Cody's Crew is the first production from Marcus/Wiseman Entertainment Inc. Independently produced, the computer animated project was created by first time Director Malcolm Marcus and his partner and wife Lisa Wiseman, Executive Producer on the project.

"It's like Toy Story meets Mighty Machines" says Malcolm who also designed the characters in Cody's Crew and worked with Lisa to set up the in-house animation studio on a shoestring budget.

"When we started, it was just Malcolm playing with plasticine in the basement" says Lisa. We didn't have a computer, software or anyone who knew what do with it if we had."

"We used to play the demo voice tapes on our kids' FisherPrice tape player after they'd gone to bed" adds Lisa.

"We had a terrific cast for the characters' voices and were fortunate to have worked with a top notch post production team on the sound design, music and editing for the video" says Lisa.

"We're getting really great feedback from parents and especially kids' adds Malcolm "they all want to know when the next Cody's Crew is coming out!"

The official Cody's Crew website is at: www.CodysCrew.com There are profiles of the characters, a preview of the Cody's Crew video and a new print out activity every day (no sign-up or registration required).

Cody's Crew is currently available at Amazon.com

Cody's Crew - The Big Building, Created, Written and Directed by Malcolm Marcus. Executive Producer Lisa Wiseman. Distributed by Marcus/Wiseman Entertainment Inc.
